Summary

Electronics Engineering graduate with experience in PCB design (Altium Designer, KiCad, EasyEDA Pro), test automation, hardware validation, and measurement systems. Worked with LabVIEW and NI TestStand for SCPI-based instrument control, RF/EMC testing, and embedded systems. Experience with MATLAB/Simulink and circuit debugging. SFS 6002 certified.

Experience

Metropolia University of Applied Sciences, Finland

Leiritie 1, Vantaa, Finland

Lab Assistant – Electronics (Internship)

Oct 2025 – Dec 2025

- Supported embedded systems programming and testing in laboratory environments
- Maintained and calibrated 20+ laboratory instruments, ensuring 100% uptime for student experiments.
- Assisted in electronics laboratory sessions and student experiments
- Designed and produced 3D-printed components for lab and project use

[Certificate Here!](#)

Lähi-Lataus Oy, Vantaa, Finland

Apr 2025 – Aug 2025

Electrical Installation Trainee / Technician (Internship)

- Assisted in design and installation of solar PV systems
- Installed and commissioned electric vehicle (EV) charging systems
- Performed electrical wiring, connection, and on-site troubleshooting
- Worked according to Finnish electrical safety standards (SFS 6002)
- Supported field installations and technical documentation

Posti Group Oy

Vantaa

Newspaper Delivery

March 2023 – Jan 2025

<https://www.posti.fi/en>

Education

Metropolia University of Applied Sciences, Finland

Bachelor of Engineering

Electronics Engineering

August 2022 – December 2025

Relevant coursework

- Electromagnetic Compatibility (EMC)
- Mathematical Methods in Electrical Engineering and Automation Technology
- RF and Analog Electronics
- Embedded Systems & Measurement Labs

Projects

ESP32-S3 Altium Board

Custom dev board design with full hardware workflow (schematic 'PCB' manufacturing).

<https://github.com/VenomPrince/ESP32-S3-Altium>

Motor Speed Control

PCB + control system for motor regulation.

<https://github.com/VenomPrince/Motor-Speed-control>

One Power Supply

Designed and implemented a regulated power supply system.

<https://github.com/VenomPrince/One-Power-Supply>

Elevator in LabVIEW

Simulated elevator control system using LabVIEW/TestStand concepts.

<https://github.com/VenomPrince/Elevator-in-LabVIEW>

RetroPie Journey

Raspberry Pi-based retro gaming system setup and optimization.

<https://github.com/VenomPrince/RetroPie-journey>

ESP32 Jammer

2.4GHz (wifi, Bluetooth) Jammer

<https://github.com/VenomPrince/JammerESP32>

Skills

Technical Skills

Test Automation & Software:

NI LabVIEW (Core), NI TestStand, SCPI (Instrument Control), Test Sequencing, Automated Reporting

Measurement & Lab Equipment:

Digital Oscilloscopes, Spectrum Analyzers, Signal Generators, Digital Multimeters (DMM), DC Power Supplies, LCR Meters

Hardware, PCB Design & Prototyping:

PCB Design (Altium Designer – Schematic & Multi-layer Layout), Circuit Analysis (Analog/Digital), PCB Troubleshooting, Through-hole & SMD Soldering, 3D Printing (CAD/Prototyping), Raspberry Pi

Modeling & Programming:

MATLAB, Simulink, C/C++ (Embedded), Python (Data Analysis), Git/GitHub

Compliance & Standards:

SFS 6002 (Electrical Safety), EMC/EMI Testing Principles, RF Measurement, Grounding & Shielding Techniques

Certifications

SFS 6002 Electrical Safety Training (Finland)

December 2025

Languages

English

I can perfectly communicate in english.

Finnish

I can understand and communicate basics of finnish.

Hindi

I can perfectly communicate in hindi.

Nepali

I can also perfectly communicate in Nepali language.

Interests

Machine Learning, AI LLMs, Electronics, Soldering
